

Important info for Apple OSX users:
CAC-1010+CAC-1010-A+CAC-1130+CAC-1510+1510-A

Important info for Apple OSX users:

The set up for the resolution 2560x1600 is hidden in the display options.

To make this option visible:

- Hold down the "option" Key on the Apple display resolution interface
- Click the zoom position of the resolution interface to display the hidden resolution
- Select the resolution 2560x1600

Note for the CAC-1010, CAC-1010-A and CAC-1130:

General Information for all type of OS users:

Please do **NOT** forget to connect the USB cable for powering the unit to a correct USB Type A port.
