Product Series
SenseVision

Itemcode
CSV-1545

EAN code
8719214470562

UPC code
841615100743

Description:
Displays have always been a key part of the PC experience. PC Gamers want a more immersive experience and Professionals seek more desktop space to run apps side by side and increase their productivity. The easiest solution is to add multiple Monitors to an existing Laptop or Desktop PC. The SenseVision MST Hub USB 3.1 Gen1 Type C to DisplayPort™ 1.2 Dual Monitor is an invaluable tool for gaming, multitasking, or simply for the fun of it. The adapter converts the video signal using displayport over USB 3.1 Gen1 Type C for a fast plug-and-play setup.

This product enables two Displays to be driven independently from a single USB 3.1 Gen1 Type C output with Displayport Alt Mode support from the source device.

Note: When using an video output with DisplayPort™ (Alt Mode) 1.1 support, the MST hub will act as a splitter, automatically mirroring your video source across the displays.

Features:
■ Compatible with Thunderbolt 3 over USB Type C source
■ Supported output resolutions :
  up to 3840x2160p @ 60Hz for Single Monitor
  up to 2560X1600p @ 60Hz for Dual Monitors
■ Supports USB 3.1 Gen1Type C ALT mode 4 lanes
■ Compliant with DisplayPort™1.2a for 1.62Gbps, 2.7Gbps or 5.4Gbps per lane
■ Support for 6 / 8 / 10 / 12 bit color depth
■ Support for HDCP 1.3 content protection
■ Advanced WideEye SerDes technology capable of receiving data over long cables.
■ Supports AMD Eyefinity™ (SLS) and Duplicate/ Extend Desktop mode
■ Supports both MST- and SST Mode.
■ Supports AMD, Nvidia and Intel Graphics solutions
■ Powered thru USB Type C (5.0V @ 220mA max), no external power needed

Note: Some Notebooks/Tablets/MiniPC's have Integrated Graphics Chips which do not support more than 3 screens in total. Please consult with your device specifications for further information.
